**6.1.12. For emergency responders**  
Protective equipment : Standard protective clothing and equipment (e.g., Self Contained Breathing Apparatus) for fire fighters. Equip cleanup crew with proper protection.  
Emergency procedures : Evacuate and limit access. Ventilate area. See information above "For non-emergency personnel".

**6.2. Methods and material for containment and cleaning up**

For containment : Immediately contact emergency personnel. Try to stop gas leak if safe to do so.  
Methods for cleaning up : Dispose of content and/or container in accordance with local, regional, national,

and/or international regulations.

**Section 7. HANDLING AND STORAGE**

**7.1. Precautions for safe handling**

Precautions for safety handling : Pressurized container: Do not pierce or burn, even after use. Use equipment rated for cylinder pressure. Do not handle until all safety precautions have been read and understood. Use only outdoors or in a well-ventilated area. Avoid contact with eyes, skin and clothing. Avoid breathing gas. Protect cylinders from physical damage; do not drag, roll, slide, or drop.
